

Nursery Friday Notes

16th December 2016

What we did this week:

This week the children had a lot of fun with Christmas themed crafts and were very excited about the Christmas party! The children began talking about the presents they had brought for their friend and showing each other which present they had brought to school.

We hope you had a great time at the Christmas party!

Class Switch:

All of your child's belongings have been returned to you. When we return from Winter break, your child will be with the opposite homeroom teacher:

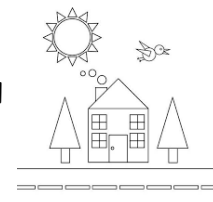

NRL will be with Ms. Limin
NRR will be with Ms. Rachael

UOI 3 - Our world is full of many shapes and colours:

After the Winter break, we will begin our new UOI. We will focus on:
Properties of colours and shapes (Form)
Colours and shapes in the world (Connection)
Colours and shapes change (change).

The children will be assessed on their vocabulary knowledge.

We will look at how the colours change when we mix them; how we can make new shapes and pictures by combining shapes; and we will explore the school to hunt for shapes and colours in our environment.

We hope you have a fun and safe Winter Break!

See you all in the New Year!
